v.1-2019**

PROFILE

OUR STORY

Servitech Institute A, Inc. was established in 2017 with the aim of providing premium quality education in order to give people a fighting edge in today's competitive world. We plan to offer senior high school, college and technical vocational education to people all over the Philippines.

Our current focus is in the technical vocational sector as we recognize the need for people to jumpstart their career and earn a living. Furthermore, we believe that learning is not only done in the classroom but also through training rooms, mock settings and gaining real experience in the industry. Thus, we partner up with private companies to give our students insight and a true to life understanding of what it's like to work in that particular industry. We hope to contribute to a better tomorrow by equipping our people with the skills today.

OUR FACILITIES

Training rooms are highly valued in our school as we understand that translating theory to practice takes a lot of work. Thus, we invest in high quality and complete equipment so that our students are exposed to the gold standard materials in the industry. They gain hands on experience in handling fragile objects and machinery which will make their transition into their career smoother. We provide large rooms in bright open spaces to create a friendly and nurturing environment for students. We believe an optimum environment should be provided so the students can learn at maximum capacity.

OUR PEOPLE

At Servitech, we have worked carefully to select the right, highly-trained personnel to achieve our mission. We have created programs that continuously enhance their skills and technological literacy to ensure our expertise are always in top shape. We select for positive attitudes, professionalism and efficiency which are all needed in the service industry.
